

Spotlight

The Baton Spotlight is a precision-engineered bespoke mono point lighting fixture designed for versatility and performance. Meticulously finished by hand and assembled in our Nashville factory, it features our signature machined brass, low-profile canopy for seamless integration into any design. The spotlight offers full 360-degree adjustability, making it ideal for downlighting or general lighting on vaulted or pitched ceilings. Built with user replaceable high-efficiency LED engines, multiple color temperatures available. It provides directional illumination with exceptional durability and a refined aesthetic. Equally suited for architectural accents or ambient lighting.
